Summary

Computer Science graduate with a CGPA of 9.72 at KL University, having strong foundations in Java, Data Structures and Algorithms, and software development. Skilled in Spring Boot, REST APIs, MySQL, and web development, with certifications in AWS and Google Cloud. Interested in Cloud Engineering and building scalable software solutions.

Skills

- **Programming Skills** — Java, C, SQL
- **Core Skills** — Data Structures & Algorithms, Object-Oriented Programming, DBMS
- **Backend** — Spring Boot, REST APIs, Hibernate
- **Web Development** — HTML, CSS, JavaScript
- **Cloud Platforms** — AWS, Google Cloud Platform (GCP)
- **Tools** — GitHub, Maven, Postman
- **Software Engineering** — MVC Architecture, API Testing, Debugging, SDLC

Professional Experience

Internship,
Google Cloud in collaboration with L4G Solutions
04/2026 – 06/2026
Acquired Skills -
- Cloud Computing Fundamentals
- Google Cloud Platform (GCP)
- Compute Engine & Virtual Machines
- Google Kubernetes Engine (GKE)
- Cloud Security & IAM

Certification -
- Google Cloud Engineering Certificate

Education

Bachelor of Technology (CSE),
Koneru Lakshmaiah University
06/2024 – Present
CGPA: 9.72

Intermediate (12th Grade), *NRI Junior College*
06/2022 – 05/2024
Percentage: 97.1%

Secondary School (10th Grade),
Srinivasa Public School
06/2021 – 05/2022
Percentage: 88.16%

Certificates

- AWS Certified Cloud Practitioner
- Deloitte Data Analytics Job Simulation – Forage
- Linguaskill English Certification
- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate
- GitHub Copilot Certification
- NPTEL Certification – Machine Learning

Projects

EduTrack – Academic Management System
- Developed a responsive frontend interface for managing student and academic information.
- Built interactive user interface components using HTML, CSS, and JavaScript.
- Designed user-friendly pages to improve navigation and academic information management

Student Management System
- Developed a full-stack web application for managing student information using Spring Boot and MySQL.
- Designed and implemented RESTful APIs for communication between frontend and backend components.
- Implemented CRUD operations for efficiently managing student records and application data.
- Integrated frontend components with backend services and applied MVC architecture for better code Organization.

Achievements

Smart India Hackathon (SIH)
- Collaborated with a team to develop a technology-based solution for a real-world problem.
- Contributed to idea development, system design, and technical problem-solving.
- Worked collaboratively in a fast-paced environment to develop and present a proposed solution

Participated in University level Frontend Hackathon
- Developed a web application for an online assignment submission & Grading system(Edu Track)
- Worked on web development and user interface design skills.

Declaration

I hereby declare that the above information is true to the best of my knowledge and I bear the responsibility to restore its value.
